PROFESSIONAL PROFILE

I am currently an Intermediate Frontend Web Developer working to tight deadlines creating stunning websites for high calibre clients. I enjoy working in technologies like JavaScript and have learned ReactJS. I have also completed a bachelor degree, studying in Web Design and Development, achieving a first class grade. Prior to this, a 15-month long apprenticeship in Marketing and Graphic and Design Media was completed.

I have had a lot of experience in technology and keeping up to date with the latest new releases that are related to computers specifically. I have been involved in game testing, testing a game named 'Iron fish' which was released as a full PC Indie game. My personal projects built in ReactJS and Javascript can be found on my portfolio website at https://nathanatherton.com.

INTERESTS

I am interested in keeping up to date with football, I enjoy attending football matches in my spare time, I support Wigan Athletic and have followed this team throughout all my life. Another of my interests that I do partake in during my free time is that I follow esports, the main game that is involved in the esports that I follow is called Rocket League, I have also partaken in some tournaments in this game, which has always kept my interest as high as possible in the esports scene.
